

Paris, June 2022

WELCOME ! BIENVENUE !

Dear Parents,

Cours Molière - International School is determined to continue training students to help them succeed and choose their best path. Some stayed in France and others are or will become ambassadors throughout the world.

They take with them their fond memories of their years spent in Cours Molière.

Our establishment has been offering an ambitious and international syllabus. Cours Molière – International School was created in 1926 thanks to a French Cambridge certified teacher. She was ahead of her time and was convinced by the positive impact of learning foreign languages at a very young age and thus exposing learners to a more global mindset. 96 years later, Cours Molière is still fulfilling this purpose.

Tradition

It is impossible to build anything without solid foundation.

At Cours Molière – International School, we take seriously the responsibility of training our students with efficient working and learning methods. This process encourages the students to discover and become the best version of themselves.

Therefore, hardwork and precision is Cours Molière's motto. Our methods foster student engagement as well as rigor in order to give each of them more than just a simple grade. Indeed, we provide students with another aspect of studying : learning better to better *understand*.

Still young!

Having the opportunity to follow a bilingual syllabus is a fortunate advantage for today. The education provided by Cours Molière brings the students to excellency - which is of great value if given with dedication.

With its bicultural syllabus, Cours Molière has the moral duty to enlighten the students on tomorrow's world debates where different cultures have to know one another and work together to make our values of tolerance prevail.

From now on and in this spirit, we wish you an excellent year at Cours Molière !

The school management,

Simone Néel & Benjamin Jarry
